

Daeun Moon

mundaemun@snu.ac.kr | moon-daeun.github.io | linkedin.com/in/moon-daeun

RESEARCH INTERESTS

Topics

- AI infrastructure and technology policy
- Science, technology and innovation policy
- Socio-technical systems and knowledge production

Methods

- Patent, bibliometric, and complex network analysis
- Econometric analysis, machine learning, and natural language processing
- Comparative case study and policy analysis

EDUCATION

- 2024 - Present **Ph.D. in Technology Management, Economics and Policy (expected August 2027)**
Seoul National University, South Korea
Integrated Major of Smart City Global Convergence
Dissertation: *Enabling AI: Production, Computing Infrastructure, and Knowledge*
Supervisor: Prof. Junseok Hwang
- 2022 - 2024 **M.S. in Technology Management, Economics and Policy**
Seoul National University, South Korea
Integrated Major of Smart City Global Convergence
- 2009 - 2015 **B.Arch. in Architectural Design**
Hanyang University, South Korea

WORKING PAPERS (*Corresponding Author)

Moon, D., Lim, S., Hwang, J., & Hwang, Y.* Scientific and Technological Layers of National AI Knowledge Production: Cross-Country Patterns and Sequences. *Technological Forecasting and Social Change*. Revise and Resubmit; revised manuscript submitted August 2026.

Moon, D., Hwang, Y., Hwang, J., & Jeong, D. Mapping AI Economic Complexity. arXiv:2609.17200 [physics.soc-ph], 2026. <https://doi.org/10.48550/arXiv.2609.17200>

Moon, D., Hwang, J., & Lim, S.* Analyzing AI Educational Technology Acceptance in Developing Countries: A Study of University Professors in Lombok. *International Journal of Educational Technology in Higher Education*. Under Review.

POLICY & RESEARCH REPORTS

Kim, J., Kim, J., Cheon, Y., **Moon, D.,** Lim, S., Hwang, Y., & Noh, B. (2025). *AI Innovation across Industries: Analysis of Industry-Level AI Patent and Publication Data* [Report in Korean]. Korea Development Institute (KDI).

RESEARCH FUNDING AND AWARDS

- 2026 **STINT-SKERIC Long-term Mobility Grant** (SEK 170,000)
The Swedish Foundation for International Cooperation in Research and Higher Education (STINT)
Sweden Korea Education, Research and Innovation Collaboration (SKERIC)
- 2025 **BK21 International Joint Research Project**
University of Central Florida, USA
From Tourism to Space: Smart Regional Transition Strategies in Central Florida
- 2024 **Grand Prize, 13th KNDA Academic Paper Award**
Korea National Diplomatic Academy
Clustering-Based National AI Science & Technology Innovation Strategy

RESEARCH EXPERIENCE

- May-Oct 2026 **Visiting Researcher**
Lund University, Sweden
Environmental and Energy Systems Studies & CIRCLE (Centre for Innovation Research)
Host: Prof. Lars J. Nilsson
- 2025-Present **Researcher**
Sweden Korea Education, Research and Innovation Collaboration (SKERIC)
Dynamic, Secure and Sustainable Society team
- 2024 **Research Assistant**
Korea Development Institute (KDI) & STEPI Joint Project
Developed comparative framework for AI competitiveness assessment
- 2023 **Research Assistant**
National Institute of Green Technology, South Korea
Analyzed carbon neutrality R&D investment patterns
- 2023 **Research Assistant**
Samsung Global Research, South Korea
Proprietary research under NDA

CONFERENCE PRESENTATIONS

Moon, D., Cho, Y., & Kang, Y. (2026, September). Materializing sustainable AI: Are policy frameworks translated into public attention? *Earth System Governance Conference*, Bath, UK.

Moon, D., Choi, S., Lee, S., Ryu, C., & Kim, H. (2026, June). Governing high-performance computing as national knowledge infrastructure: A comparative analysis between Sweden and South Korea. *International Conference on Innovation and Technology Studies (ITS 2026)*, Tokyo, Japan.

Moon, D. (2025, June). Analyzing the impact of artificial intelligence development on green technology innovation: Temporal evolution and threshold effects. *International Association for Management of Technology PhD Colloquium*, Montreal, Canada.

Moon, D. (2025, June). Raw material first: Rethinking R&D portfolio strategy in green technology lifecycles. *International Association for Management of Technology*, Montreal, Canada.

Moon, D. (2025, May). Green technology policy and innovation across life cycle stages: A BERT-based patent analysis. *Atlanta Conference on Science and Innovation Policy*, Atlanta, USA.

Moon, D., Lim, S., & Hwang, J. (2024, December). Analyzing AI educational technology acceptance in developing countries: A study of university professors in Lombok. *Korean Society of Technology Management & Economics Winter Conference*, Korea.

Moon, D. (2024, November). Green technology patent trends and national growth potential: Global industrial innovation strategy analysis. *Korean Society of Innovation Fall Conference with KISTEP*, Korea.

Moon, D. (2024, August). Mapping the digital twin knowledge landscape: Identifying core technologies and regional diversification potential in the U.S. *US-Korea Conference on Science, Technology, and Entrepreneurship (UKC)*, San Francisco, USA.

Moon, D., Park, S., & Hwang, J. (2024, May). Literature review of smart city policy trends in South Korea and China: Focusing on climate responses. *International Conference on Management and Information Technology*.

TEACHING EXPERIENCE

2025 Fall	Teaching Assistant <i>Introduction to Smart City Global Convergence</i> (graduate), Seoul National University
2025 Fall	Teaching Assistant <i>Smart City Seminar on Technology Convergence (Understanding Fundamentals of Smart Cities)</i> (graduate), Seoul National University
2024 Spring	Teaching Assistant <i>Engineering, Technology and Society</i> (undergraduate), Seoul National University

PROFESSIONAL EXPERIENCE

2017 - 2022	Engineering Project Manager / Research Engineer DMS Engineering & Solaria Engineering Managed solar PV projects across Korea, China, and United States
